

## **MEDICAL ADAPTATIONS POLICY**

We receive funding each year from Local Authorities to undertake Medical Adaptations via a referral from an Occupational Therapist. Once funding is granted we carry out surveys to the properties and instruct our contractor to proceed with the works agreed with the tenant, their OT and Scottish Veterans Residences.

We aim to carry out as many adaptations as possible, however this can vary annually as we are dependent on the amount of funding we receive.

Examples of Adaptations that we install are:

- Level Access Shower
- Wet Floor Shower Installation
- Over Bath Shower
- Lever Taps
- Handrails

These are not exhaustive and others will be looked at on an individual basis as referred by the Occupational Therapist. Please contact the Property Services Manager on 0131 5560091 for further information.
